## MINUTES

10:00 am

### Welcome, Acknowledgement of Country and Confirmation of previous minutes

- In keeping with the spirit of reconciliation, I respectfully acknowledge the Turrbal people, the Traditional Owners of the land on which we are meeting today and pay respect to their Elders past, present and emerging.
- No questions or concerns regarding last month's minutes.

### Make meetings matter at BAC

1. Do you need to meet?  
5. Try a stand up

2. Agenda. Purpose. First. Always.  
6. Switch off & tune in

3. Keep them small  
7. Speak up

4. Keep it short

## 10:05 -10:10 am

### Actions arising from previous minutes

**Jessica Shannon:** First action - Forecast of the average turboprop movements over Suburbs. These numbers could change day to day. Jessica's commitment to BACACG is to keep everyone up to date especially if there will be a significant change in numbers. Request any question regarding turbo props to send them through. - *refer to presentation.*

Second action - The collection of community engagement activities undertaken in the last 15 years relating to Brisbane new runway. Its currently with the graphic designer and BAC will distribute to the public and to BACACG once its complete

## 10:10 am - 10:30 am

### Chair Update

**Chair :** Gave background on the Advisory forum and role they play. And how there will be an opportunity for the community to participate and give feedback.

Discussed points from the ANO report for Melbourne and key findings relevant to Brisbane. - *refer to presentation.*  
**Invitations to be issued for additional community representation - ACTION**

Chair requested Phil McClure to elaborate on details referring to the Advisory Forum.

### Phil McClure:

- The Government have established this group which will run alongside of ASA PIR review.
- Will look at how the community views are being addressed. Community to have opportunities to raise feedback.
- 12-month period – Government to decide if this will be an ongoing forum.
- Recognizes it's a "whole" community forum and not just for those communities under the new flight paths and will take a balance view.

**David Diamond:** raised concerns with what the Advisory Forum is trying to achieve, and the difficulty for the community to raise concerns.

## 10:30 am -10:50 am

### Regular reporting updates Community

**Laurie Buys:** Community is excited to things getting back to normal and being able to travel. Noted there are new communities experiencing the aircraft noise like what the legacy community have been experiencing for many years, and there are concerns traffic may be shifted back because some communities are more vocal.

**David Diamond:** The newly concerned community is not about "pushing it back to where it came from" and all flights should be over the bay when possible.

**Daryl Wilson:** General comment from a community member from Norman Park regarding the noise when aircraft drop there landing gear.

*Brendan Mead Answered Daryl question and explained the wheels must be down at a set height prior to landing to meet the safety and approach criteria and it can change from one type of aircraft and airline to another.*

**Chris Kang:** Community concerns with development in local area (Pinkenba) which is more of a council matter, community are looking forward to more planes in the air and travel starting to start again.
